

**Database Solutions, LTD. Announces Its Registration for the LAMP 2007 Conference**

**Tuesday February 27, 7:30 am ET**

***Database Solutions Continues With Its Participation in Major Financial Services Conferences as a Successful Marketing Strategy***

TORONTO--(MARKET WIRE)--Feb 27, 2007 -- DATABASE SOLUTIONS, LTD. (Other OTC:DBSJ.PK - News), a Customer Relationship Management (CRM) and Technology Company for the Insurance and Financial Industry, is pleased to announce today that it has registered as an exhibitor for the LAMP 2007 INSURANCE AND FINANCIAL SERVICES CONFERENCE being held in Toronto Ontario, Canada March 19th and 20th. "Exhibiting in major Insurance and Financial Industry conferences has proven to be very successful for Database Solutions. This Conference in particular will play a major role in positively exposing Database Solutions and its products, in particular Agent Intelligence to Insurance Industry players," says Jason Wong, President.

About the LAMP 2007 Conference

LAMP 2007 is organized by GAMA International ([www.gamaweb.com](http://www.gamaweb.com)) the only association dedicated to promoting the professional development needs of managers in the insurance and financial services industry. GAMA International is the only volunteer organization that focuses on the agency building tasks and skills of successful career agencies/firms. GAMA International's mission is:

TO ADVOCATE the value-added role of field leadership in the ethical distribution of financial products and services.

TO SERVE the professional development needs of individuals and companies engaged in building the distribution of financial products and services.

TO ACT as a catalyst to connect companies and distribution management in the insurance and financial services industry.

About Database Solutions, LTD.

Database Solutions, LTD. is a technology and marketing company in the on-demand Customer Relationship Management (CRM) industry and the software developer of Agent Intelligence. Database Solution's Agent Intelligence Technology is proprietary browser-based software and was designed specifically for the insurance and financial industries to provide backend administration of insurance policies, financial transactions, client tracking and client marketing/selling strategies for an entire insurance brokerage or insurance company. The Company's family of products includes a comprehensive suite of

CRM applications to help enterprises of all sizes, industries and geographies meet the complex challenge of sharing and managing information on-demand. Unlike other insurance administration systems currently on the market, Agent Intelligence focuses on the needs of the broker by simplifying their business while eliminating the paper administration involved in tracking their clients to increase sales. By automatically tracking all events along the lead development process an agent and/or manager is able to see any weaknesses in an agents selling process. Automated reports critical to both management and agent are automatically available through the use of the Agent Intelligence System. Agent Intelligence is 100% browser based and requires no hardware or software installation. The Agent Intelligence user also immediately benefits from complete upgrades and on-demand customization.
