Mr. Jason Wong, Chief Executive Officer for Database Solutions, Ltd., stated, "I am very excited about adding The FAB Group to our growing list of customers. They represent significant relationships in the Insurance Industry and by using our Agent Intelligence products can only further our goal to be the premium number one CRM software of choice to the Insurance and Financial communities."

About Database Solutions, Ltd.

Database Solutions, Ltd. is a technology and marketing company in the on-demand Customer Relationship Management (CRM) industry and the software developer of Agent Intelligence. Database Solution's Agent Intelligence Technology is a proprietary browser-based software and was designed specifically for the insurance and financial industries to provide backend administration of insurance policies, financial transactions, client tracking and client marketing/selling strategies for an entire insurance brokerage or insurance company. The Company's family of products includes a comprehensive suite of CRM applications to help enterprises of all sizes, industries and geographies meet the complex challenge of sharing and managing information on-demand. Unlike other insurance administration systems currently on the market, Agent Intelligence focuses on the needs of the broker by simplifying their business while eliminating the paper administration involved in tracking their clients to increase sales. By automatically tracking all events along the lead development process an agent and/or manager is able to see any weaknesses in an agent's selling process. Automated reports critical to both management and agent are automatically available through the use of the Agent Intelligence System. Agent Intelligence is 100% browser-based and requires no hardware or software installation. The Agent Intelligence user also immediately benefits from complete upgrades and on-demand customization.
