

# Database Solutions, LTD., Announces Its Registration for Investment Executive Office of Tomorrow Expo

Monday April 16, 8:30 am ET

## Database Solutions to Participation in OTX3 Annual Technology Conference for Financial Services as a Successful Marketing Strategy

TORONTO--(MARKET WIRE)--Apr 16, 2007 -- DATABASE SOLUTIONS, LTD., (Other OTC:[DBSJ.PK](#) - [News](#)), a Customer Relationship Management (CRM) and Technology Company for the Insurance and Financial Industry, is pleased to announce today that it has registered as an exhibitor for the Investment Executive Office of Tomorrow (OTX3) being held in Toronto Ontario, Canada May 15th 2007. "Database Solutions will continue generating business and revenue through participation in major Insurance and Financial Industry conferences. This Conference in particular concentrates on new technologies and will play a major role in positively exposing Database Solutions and its products, in particular Agent Intelligence to Insurance Industry players," says Mr. Wong, President.

About Investment Executive and Office of Tomorrow Expo

OTX3 ([www.otx3.com](http://www.otx3.com)) is brought to you by Investment Executive, AdvisorTechSolutions.com and Vorg Inc., The Office of Tomorrow Expo is a proven one-day financial industry technology conference and boutique tradeshow supported by a year-round Web-based resource, Tech Tools, aimed at educating advisors about practice-based tech solutions

About Database Solutions, LTD.

Database Solutions, LTD. is a technology and marketing company in the on-demand Customer Relationship Management (CRM) industry and the software developer of Agent Intelligence. Database Solution's Agent Intelligence Technology is proprietary browser-based software and was designed specifically for the insurance and financial industries to provide backend administration of insurance policies, financial transactions, client tracking and client marketing/selling strategies for an entire insurance brokerage or insurance company. The Company's family of products includes a comprehensive suite of CRM applications to help enterprises of all sizes, industries and geographies meet the complex challenge of sharing and managing information on-demand. Unlike other insurance administration systems currently on the market, Agent Intelligence focuses on the needs of the broker by simplifying their business while eliminating the paper administration involved in tracking their clients to increase sales. By automatically tracking all events along the lead development process an agent and/or manager is able to see any weaknesses in an agent's selling process. Automated reports critical to both management and agent are automatically available through the use of the Agent Intelligence System. Agent Intelligence is 100% browser based and requires no hardware or software installation. The Agent Intelligence user also immediately benefits from complete upgrades and on-demand customization.
