

DATABASE SOLUTIONS, LTD., LAUNCHES FREE BASIC ONLINE ON-DEMAND AGENT INTELLIGENCE SOFTWARE FOR INDEPENDENT INSURANCE SALES AGENTS.

Strategy Will Promote Sales For The Upgraded Agent Intelligence v.3.0 Software To the Insurance Brokerage House

TORONTO, CANADA – March 31st, 2006 - **DATABASE SOLUTIONS, LTD.** - (Other OTC: DBSJ.PK), a Customer Relationship Management (CRM) & Technology Company, announced today that it has modified and restructured its online on-demand software products to offer Independent Insurance Agents a free basic version of the Agent Intelligence on-demand software, that will include basic reporting and all the tools that an individual Agent requires to track their clients and prospects. There will be no trial period or time restrictions that you normally see from other companies offering free products.

Database Solutions has decided to offer this basic version of our Agency on-demand software to allow the Independent Agent and smaller agencies the opportunity to utilize the power of the Company's Agent Intelligence CRM tools, while promoting the sales for the more feature rich Agent Intelligence v.3.0 and our One and One version on-demand software packages that includes both front-end office and back-end office management tools. For more information about this free offer, visit the Company's Web site: www.onlinedatabasesolutions.com

Mr. Jason Wong, Chief Executive Officer of Database Solutions, LTD., stated, "This strategy makes a lot of good business sense for our Company. We have experienced a tremendous interest from the Insurance Brokerages, mostly due to fact that their independent sales agents have been using our online customer relationship management tools out in the field." Mr. Wong continues by stating, "Brokerages are seeing the benefits to integrate their sales agents management tools by utilizing our complete feature rich back office management software."

Database Solutions will also encourage the Insurance sales agents to participate in our online broker forum network. The Company's online forum is open to all users free of charge, and allows for anyone to ask questions, converse with other brokers, provide opinions, and obtain valuable information.

About Database Solutions, LTD.

Database Solutions, LTD. is a technology and marketing company in the on-demand Customer Relationship Management (CRM) industry and the software developer of Agent Intelligence. Database Solution's Agent Intelligence Technology is a proprietary browser-based software and was designed specifically for the insurance industry to provide backend administration of insurance policies, client tracking and client

marketing/selling strategies for an entire insurance brokerage or insurance company. The Company's family of products includes a comprehensive suite of CRM applications to help enterprises of all sizes, industries and geographies meet the complex challenge of sharing and managing information on-demand. Unlike other insurance administration systems currently on the market, Agent Intelligence focuses on the needs of the broker by simplifying their business while eliminating the paper administration involved in tracking their clients to increase sales. By automatically tracking all events along the lead development process an agent and/or manager is able to see any weaknesses in an agents selling process. Automated reports critical to both management and agent are automatically available through the use of the Agent Intelligence System. Agent Intelligence is 100% browser based and requires no hardware or software installation. The Agent Intelligence user also immediately benefits from complete upgrades and on-demand customization.
