

DATABASE SOLUTIONS, LTD., ANNOUNCES PLANS TO DEVELOP AN ONLINE ON-DEMAND SOFTWARE TO TRACK FINANCIAL INVESTMENTS

Financial Module Will Manage Specific Insurance Transactions Such As Mutual Funds and Retirement Savings Products

TORONTO, CANADA – April 3rd, 2006 - **DATABASE SOLUTIONS, LTD.**, (Other OTC: DBSJ.PK), a Customer Relationship Management (CRM) and Technology Company for the Insurance Industry, is pleased to announce today plans to enhance Agent Intelligence on-demand software to provide a comprehensive Financial Services module targeted specifically for tracking insurance investment transactions such as Mutual Funds and retirement savings products.

Currently Agent Intelligence does give the user the ability to track some financial investment products, but only on a limited bases. Database Solutions believes, that by offering this Agent Intelligence module, designed specifically for users to manage their insurance investments, will both increase sales and expand the company's market.

Mr. Jason Wong, Chief Executive Officer of Database Solutions, LTD., stated, "Our strategy and business model is centered around providing a complete management tool for the Insurance Industry to better track their product offerings and services. Developing this financial product brings our Company closer to that goal."

About Database Solutions, LTD.

Database Solutions, LTD. is a technology and marketing company in the on-demand Customer Relationship Management (CRM) industry and the software developer of Agent Intelligence. Database Solution's Agent Intelligence Technology is a proprietary browser-based software and was designed specifically for the insurance industry to provide backend administration of insurance policies, client tracking and client marketing/selling strategies for an entire insurance brokerage or insurance company. The Company's family of products includes a comprehensive suite of CRM applications to help enterprises of all sizes, industries and geographies meet the complex challenge of sharing and managing information on-demand. Unlike other insurance administration systems currently on the market, Agent Intelligence focuses on the needs of the broker by simplifying their business while eliminating the paper administration involved in tracking their clients to increase sales. By automatically tracking all events along the lead development process an agent and/or manager is able to see any weaknesses in an agents selling process. Automated reports critical to both management and agent are automatically available through the use of the Agent Intelligence System. Agent Intelligence is 100% browser based and requires no hardware or software installation. The Agent Intelligence user also immediately benefits from complete upgrades and on-demand customization.
