

Database Solutions, LTD. Plans Launch of Partnership and Affiliate Programs

Friday April 7, 7:00 am ET

Programs Will Allow Web Based Software Resellers, Insurance Information Portals and Private Insurance Associations to Resell Agent Intelligence Products

TORONTO--(MARKET WIRE)--Apr 7, 2006 -- DATABASE SOLUTIONS, LTD. (Other OTC:[DBSJ.PK - News](#)), a Customer Relationship Management (CRM) and Technology Company for the Insurance Industry, today announced that it has developed, and is set to launch, the affiliate and partnership programs for Agent Intelligence On-Demand software products. Information and details will be available to interested parties no later than April 14th by visiting the company web site: www.onlinedatabasesolutions.com.

Database Solution's Affiliate Program will allow qualified Insurance Information web site portals and Software Resellers, the ability to refer Agent Intelligence products to their customers whereby Database Solutions will pay a commission to affiliates upon completion of sale. Interested potential affiliates can register for this program by simply clicking on the Affiliate Icon on Database Solutions web site: www.onlinedatabasesolutions.com.

Database Solution's Partnership Program will allow Insurance Associations to offer private-labeled or white-labeled Agent Intelligence products to its members at a discount, and participate in re-curing revenue sharing. To qualify for the Partnership Program, interested parties should click on the Partnership Icon and fill out the on-line application.

Mr. Jason Wong, Chief Executive Officer for Database Solutions, LTD., stated, "We believe that the affiliate and partnership programs will significantly increase exposure globally for Database Solutions and its Agent Intelligence products." Mr. Wong continued by stating, "We have had many requests to put a program like this together and have already spoken to several insurance portals and organizations in regards to possible Joint Venture and partnership programs."

About Database Solutions, LTD.

Database Solutions, LTD. is a technology and marketing company in the on-demand Customer Relationship Management (CRM) industry and the software developer of Agent Intelligence. Database Solution's Agent Intelligence Technology is a proprietary browser-based software and was designed specifically for the insurance industry to provide backend administration of insurance policies, client tracking and client marketing/selling strategies for an entire insurance brokerage or insurance company. The Company's family of products includes a comprehensive suite of CRM applications to help enterprises of all sizes, industries and geographies meet the complex challenge of sharing and managing information on-demand. Unlike other insurance administration systems currently on the market, Agent Intelligence focuses on the needs of the broker by simplifying their business while eliminating the paper administration involved in tracking their clients to increase sales. By automatically tracking all events along the lead development process an agent and/or manager is able to see any weaknesses in an agents selling process. Automated reports critical to both management and agent are automatically available through the use of the Agent Intelligence System. Agent Intelligence is 100% browser based and requires no hardware or software installation. The Agent Intelligence user also immediately benefits from complete upgrades and on-demand customization.
